

The Successor Issue and the True Law

Gabriel and Michael the Great

(1) Message from Gabriel

I delivered many messages back when the GLA was still in existence, and among these there are a few points I wish to comment on further concerning Michael Keiko. After Keiko was appointed as the successor to Shinji Takahashi and her orientation began to incline toward hell, those of us in Heaven sent repeated warnings to her. Those who know Keiko and are familiar with her circumstances can easily understand how Keiko could have taken the warnings we intended for her, to give them to the members of the GLA instead. What caused her to do this? It was an immeasurably large and dark cloud which loomed over her called delusions of grandeur. If there is any opening at all in the heart of a spiritual medium, the spiritual phenomenon becomes confused. This is especially the case for someone like Keiko who was not much older than twenty, and was lacking in life experiences. She later became convinced that she herself was Michael the Great, the highest authority in Heaven, who was the only one capable of saving the world. This behavior was possible only because she was an immature soul unaware of many things.

Back then Miss Yuko Chino was still not notified of the fact that she was the real successor, and she just continued to devote herself to spreading the True Law, and the only ones who knew that she was the primary body of Michael was El Lantie and Michael himself.

Why were the others in the Celestial Realm not informed about this? Heaven makes those who are the transmitters of our teachings suffer more than the average person. They are made to experience the universal human feelings of agony, sorrow, and

emptiness, and only after this are they made to realize the beauty and preciousness of human life. Naturally the life of these chosen people are protected during this time and they are given special guidance to reach enlightenment on a high level. Heaven chooses just the right time to impart its mission on those it selects. Enlightenment means to become free of the day to day problems which everyone experiences. So it is only natural that someone who grew up with problems just like everyone else in the world is selected as the person to save humanity which is made up of ordinary individuals. There is no meaning in our selecting someone who is extraordinarily gifted.

Further, Miss Chino's real stature was kept a secret by Michael and El Lantie in order to escape detection by Satan Davide. Nevertheless, it is true that back then, even I did not know about Miss Chino, and thought that the primary body of Michael was Keiko. I even stated in a message that Keiko was the primary body of Michael. Even though I was not aware of the truth at that time, I lent my support in her writing her first book in ten days (it did take the work of professional writers to make it printable). If my messages were misused to build up the myth of Michael Keiko, I feel deeply responsible and wish to express my sincere regret and apology.

You people should have learned many important lessons from the successor problem. The first thing that must be realized is the weakness and fragile state of people's hearts. There are various kinds of realizations according to the level of each individual. Realization is not an absolute thing. It is like a jewel which can become dull and lose its shine if it is not polished frequently. No matter how a person may say they plan to selflessly work for the True Law, or to serve others, if they become
