

The Messiah

Gabriel

I will give the message for the first time in a long while as a preview to an important announcement. It has been stated from a long time back that I would be succeeding Michael the Great, as the highest authority in Heaven, but that the time of this succession had not been finalized. Now the actual date of this succession has been discussed, and it has been decided that it will be announced most likely the day Miss Yuko Chino comes to join us in Heaven. It has not yet been decided yet whether one or two persons will become the spokesperson for Heaven in Miss Chino's place. Nevertheless, this spokesperson will only act as a medium for spiritual messages, and the will of Heaven is actually to be transmitted to earth through a core group of worthy individuals, and they shall act as the leaders in implementing the will of Heaven.

Also, the number of false prophets in Japan recently seems to have increased considerably, but as I have announced already, there are to be no more messiahs as such. It is only those persons possessed by evil spirits who ignore those of us in Heaven as being fake and take pleasure in leading people astray. Although we have abolished the form of messiah, the true messiah is with us, and we are acting in place of the messiah for the salvation of your souls. You must bear this point in mind.

We want you to tell those people who are unashamedly supporting the false prophets that the prophesy of the return of one messiah for finally saving all of mankind has become nothing more than a myth of the past. If one takes a hard look at reality, one can understand how the return of the Messiah is an impossibility. There is no way the whole human race will follow one leader in this age of democracy. Inevitably, the urge will arise again in mankind to kill Jesus Christ. People do not

really desire a true hero, and instead each person only possesses jealousy and the desire to receive recognition as being a hero themselves. The Messiah will be crucified once more because the agitation of evil spirits will again make this possible. Mankind does not know what it really wants, and will continue to make terrible mistakes.

Those of us in Heaven will not allow such a tragedy to ever take place again. Our decision concerning this will not change. We will continue to destroy the evil spirits which control these spiritual frauds and false prophets who say otherwise. The end of the world must not come, but if it inevitably does come, you will all realize then that a messiah to save the world never appeared, and that salvation only comes through those of us in Heaven and not from the deception of others.

Concerning the primary body of Moses, at present a certain individual is being taught the presently rendered teachings of the True Law through Miss Yuko Chino and how to put the True Law into action and become worthy of this position. However, since some individuals tend to idolize spiritual mediums, I shall refrain from announcing who this is. If this individual develops to a point where his character is found worthy of transmitting the will of Heaven, we shall announce his name along with the announcement of my succession to the highest authority in Heaven. You must bear in mind, however, that if this individual is not worthy no such announcement will be forthcoming.

(June 29, 1984, Dictated to Yuko Chino through her clairsaudience.)
